

## Interpon HT: Heat Resistant powder coating

# Protecting your assets, even when it gets hot!

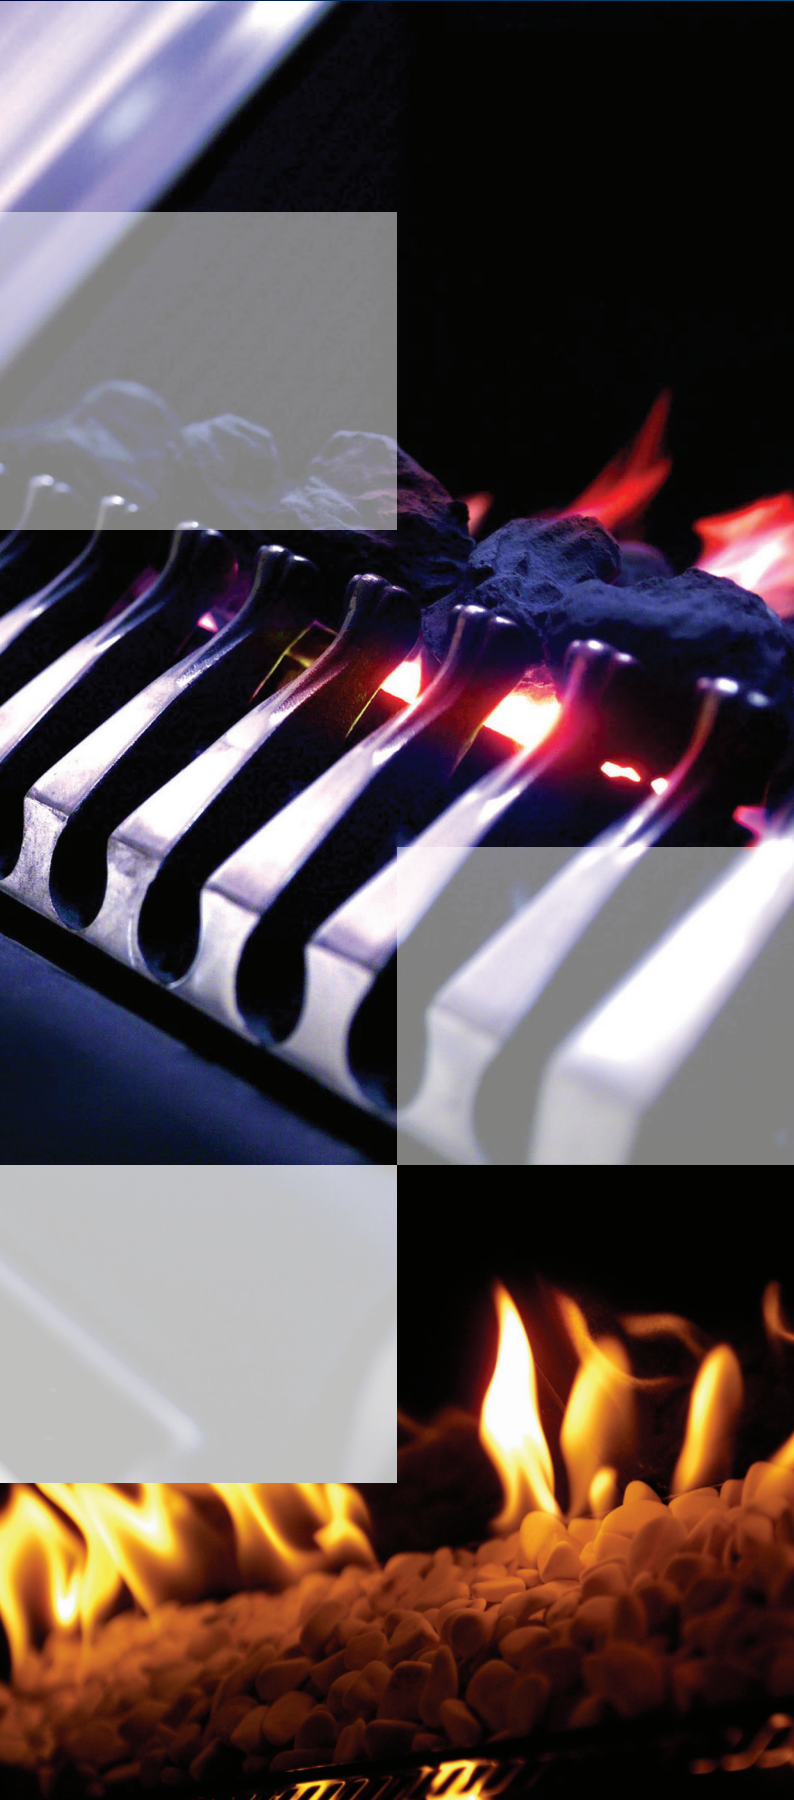

Interpon HT is our range of heat resistant powder coatings, that protect assets which are exposed to fire or other sources of heat. Designed for application on steel, iron and cast iron that require heat resistance properties ranging from 200°C to the extreme high heat temperatures of 550°C.

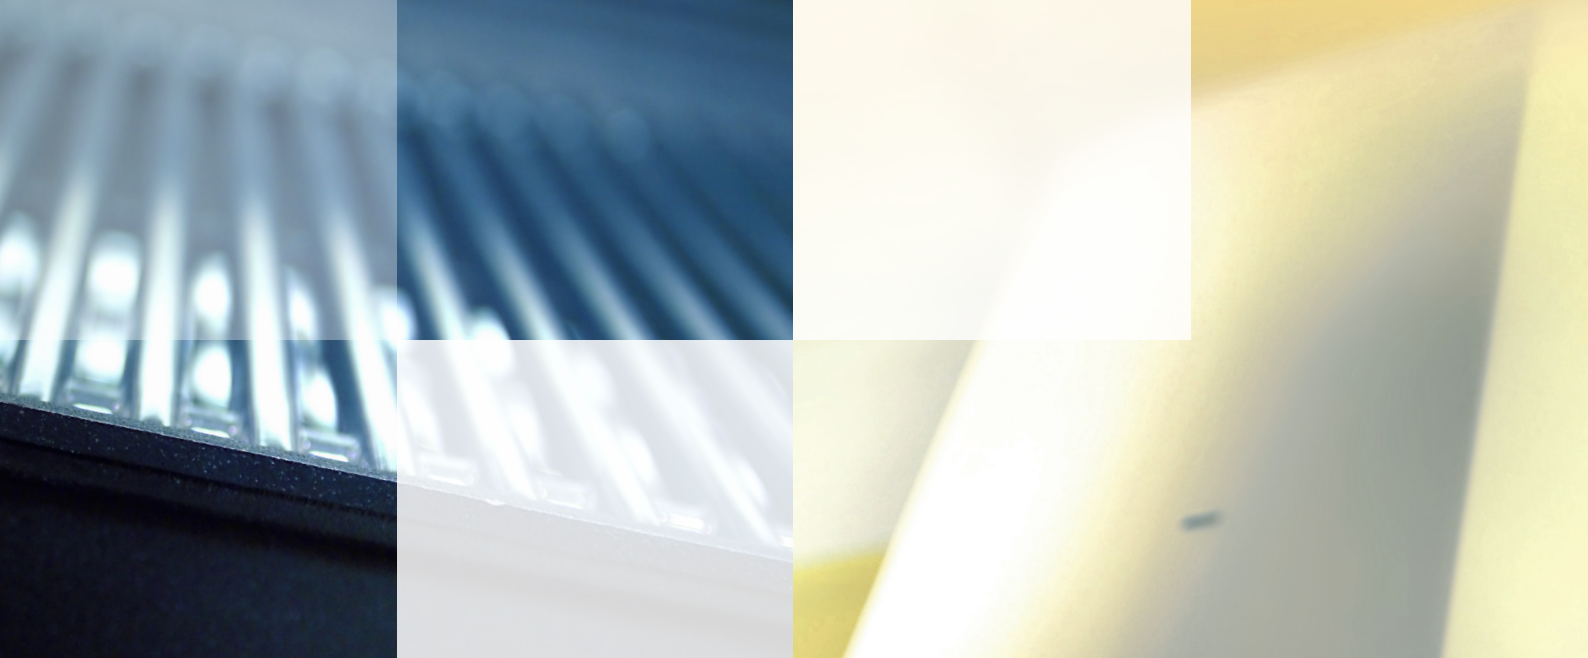

When your terrace heater gets turned on, you are sure to stay safe and sound, without sacrificing the look of it.

### Typical uses for Interpon HT:

- Fireplaces and Barbecues
- Boilers and stoves
- Exhaust systems and chimney flues
- Mufflers for generators and tractors
