

Product Data Sheet

AkzoNobel Powder Coatings

Interpon D34

Product Description

Interpon D34 is a series of durability powder coatings specially formulated for use on architectural aluminum.

Interpon D34 conforms with the performance requirements of GB5237.4 specification.

Interpon D34 is designed to offer significantly higher gloss retention and resistance to colour change combined with maximum film integrity to ensure long term cosmetic and functional protection.

Interpon D34 powders are available in a selected range of colours pearlescent effects in gloss, satin and matt, fine and coarse texture effect also available.

Powder Properties

Chemical type	Polyester	
Appearance	Depends on specific product	
Particle Size	Suitable for electrostatic spray	
Gloss	Depends on specific product	
Specific gravity	1.2-1.7 g/cm³ (depending on color)	
Storage	Dry cool conditions below 30 °C	
Shelf life	6months (<30 °C), 12 months (<25 °C)	
Stoving schedule	15 minutes at 190°C	
(object temperature)	10 minutes at 200°C Failure to observe the correct curing conditions may cause difference in colour, gloss and the deterioration of the coating properties.	

Test Conditions

The results shown below are based on mechanical and chemical tests which (unless otherwise indicated) have been carried out under laboratory conditions and are given for guidance only. Actual product performance will depend upon the circumstances under which the product is used.

Substrate Pretreatment	Al extrusion qualified Cr ³⁺ , Cr ⁶⁺ or non-Cr pretreated
Film Thickness	60-80 microns
Stoving Schedule	10 minutes at 200°C (object temperature)

Mechanical Tests	Adhesion	GB/T 9286	Gt 0
	Erichsen Cupping	GB/T 9753	Pass > 5mm
	Impact	GB/T 1732	Pass-Reverse impact, 2.5mm deformation no crack
	Indentation hardness	GB/T 9275	Pass-Minimum 80 with the specified required
	Bend test	GB/T 6742	Pass-Bending mandrel 3mm no crack
	Boiling Water	GB5237.4-5.4.10	Pass-No detachment of the film, Slight gloss and color change is allowed
Chemical and Durability Tests	Constant Climate Condensation	GB/T 1740	Pass-1000 hours, no blistering or loss of gloss
-	Mortar Resistance	GB5237.4-5.4.12	Pass- 24 hours, Gloss loss is slight
	Accelerate durability	GB/T 1865	Pass-1000 hours

1

Interpon D34

Corrosion Tests Acetate Acid Salt GB/T 10125 Pass-1000 hours, infiltration **Spray** length<4mm

Acid Resistance GB5237.4-5.4.11 Pass-15 minutes, no blistering or

detachment

Pre-treatment Aluminum surfaces to be coated must be clean and free from grease. Aluminum substrates may require a chromate conversion coating.

Application Interpon D34 powders can be applied by manual or automatic electrostatic spray equipment, however for consistency of finish automatic equipment is preferred. Unused powder can be reclaimed using

> Fluidizing air pressure ~0.7 bar

suitable equipment and recycled through the coating system.

Transport air pressure ~0.7bar Recommended voltage 40-90kV

Damage Repair Surface preparation Sanding + Air cleaning

Application

Safety Precautions When using, do not eat, drink or smoke. Do not breathe the dust. In case of insufficient ventilation wear suitable respiratory equipment. For further information please refer to the specific product Material

Recoat: Lower Voltage

Safety Data Sheet (MSDS) available on request from your local AkzoNobel sales office. IMPORTANT NOTE: The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other

than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the

performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advices given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product.
