Interpon Anodic III Collection

Interpon D2525 and D3000 superdurable and hyperdurable metallic-effect finishes

The Interpon D Anodic III Collection of metallic-effect powder coatings helps architects and designers imagine designs that have the stunning look of anodized aluminum, but with a minimal environmental impact to leave a lasting legacy and protect the world around us.

Available in an amazing range of matte and metallic-effect finishes, the innovative Interpon D Anodic III powder coatings comprise a beautiful collection of colors, from shiny blacks to soft silvers, steely blues to earthy bronzes, to match every mood and style.

The ideal alternative to anodized aluminum for windows and facades, an Interpon D2525 and D3000 Anodic III finish delivers superior color and gloss retention and better color consistency. Surfaces are also much easier to repair should the coating be chipped or damaged during fabrication or installation. Its proven resistance to weathering is supported by a long-term guarantee for a truly remarkable stand-out performance.

Transparency and reliability

Building a sustainable future

The Interpon D Anodic III Collection is one of a family of products that is not just helping us to imagine the future; it is also protecting it. Backed by an Environmental Product Declaration (EPD), the raw materials, manufacture and transportation associated with creating Interpon D have been assessed by an independent third-party for transparent sustainability credentials.

Creating futures that last

You can rely on us. Our Interpon D Anodic III Collection delivers on its promised durability levels in terms of color retention and film integrity.

- Offering up to 20 years global warranty on the coating performance for the Interpon D2525 Anodic III range and up to 30 years global warranty for the Interpon D3000 Anodic III range when applied by an Interpon D Approved Applicator.
- Qualicoat Class 2/Class 3 and GSB Master certifications.
- Meets the performance requirements of AMAA 2604, AMAA 2605 and BS EN 122206.

Colors and trends for the world's finest creative minds
