AkzoNobel Powder Coatings

Interpon A1242 BL104QF / 13-7009B ZincRich

Product Description

Interpon A1242 powder has an excellent line of coatings for coil springs, and torsion bars essential to the safe performance and comfortable ride of today's car and truck chassis systems. Interpon **A1242**'s single layer systems offer unyielding performance in corrosion and chip resistance balanced with excellent application efficiencies. Our patented dual-layer system for coil springs offers superior corrosion protection and critical chip resistance in both zinc and non-zinc containing primer versions to bring you the most economical and responsible choices in coatings for high performance, high tensile springs.
