AkzoNobel

Local Stock Offer: Architectural Powder Coatings

Interpon D Applicator Program and Warranties :

AkzoNobel Powder Coatings gives Approved Applicator status only to those applicators who have been assessed and found to have metal pretreatment facilities, powder application equipment, stoving and testing facilities which are considered to be of the appropriate standard to ensure the successful application of the Interpon D range of architectural powder coatings. In addition to this, the applicator must demonstrate to the satisfaction of AkzoNobel that a satisfactory quality management procedure is in place to achieve the quality and the continuity of quality expected of Interpon D range coated metal. Akzo Nobel technical service team makes regular visits to the applicators to support and audit the applicators.

All Interpon D products are backed by an international project warranty when applied by Akzo Nobel Approved Applicators. The term of the project warranty : 15 years for Interpon D1000 series, 25 years for Interpon D2000 series, and 30 years for Interpon D3000 series
