

Product Data Sheet

| | ML800GF / 90-84-7057-6 | | | |
|-----------------------------|--|---|--|--|
| Product Description | Interpon A5150 is a series of standard durability powder coatings, formulated without TGIC, designer for exterior exposure. Tested against OEM specifications Interpon A5150 exhibits excellent corrosion resistance and good gloss retention and resistance to colour change. Interpon A5150 has been developed for chassis and chassis components for trucks. | | | |
| Powder Properties | Chemical type | Polyester | | |
| | Area of usage | Truck chassis and chassis parts | | |
| | Particle Size | Custom manufactured | | |
| | Appearance | Smooth | | |
| | Colour | Volvo Thundergrey No. 1717 | | |
| | Gloss (60°) | 30 - 42 GU | | |
| | Density (g/cm ³) | 1,45 ± 0,05 | | |
| | Stoving schedule | 10 minutes at 200°C (tim | e at object temperature) | |
| | Application | Tribo- and electrostatic | | |
| | | | | |

Interpon A5150 ML800GF / 90-84-7057-6

| Application | Interpon A5150 powders can be applied by manual or automatic electrostatic spray equipment. It is recommended that for consistent application and appearance product be fluidized during application. Unused powder can be reclaimed using suitable equipment and recycled through the coating system. | | |

| Safety Precautions | This product is intended for use only by professional applicators in industrial environments and should not be used without reference to the relevant health and safety data sheet which Akzo Nobel has provided to its customers. | | |
| Disclaimer | IMPORTANT NOTE: The information in this data sheet is not intended to be exhaustive and is based on the present state of our knowledge and on current laws: any person using the product for any purpose other than that specifically recommended in the technical data sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. Always read the Material Data Sheet and the Technical Data Sheet for this product if available. All advice we give or any statement made about the product by us (whether in this data sheet or otherwise) is correct to the best of our knowledge but we have no control over the quality or the condition of the substrate or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing otherwise, we do not accept any liability whatsoever for the performance of the product or for any loss or damage arising out of the use of the product. All products supplied and technical advices given are subject to our standard terms and conditions of sale. You should request a copy of this document and review it carefully. The information contained in this data sheet is subject to modification from time to time in the light of experience and our policy of continuous development. It is the user's responsibility to verify that this data sheet is current prior to using the product. | | |
