Outstanding coatings for
outstanding performers

Interpon. Your Personal Best.

AkzoNobel

Interpon Industrial Range

In a world that's ready when you are

To stay out in front, you need to be sure you can access the right colors at the right time. The colors your customers will love. Colors that are guaranteed to be on trend. Colors that have been chosen by experts on top of their game, so you can be on top of yours.

Interpon powder coatings comprise the most comprehensive range of premium colors, textures and finishes to help keep the wheels of industry turning, Ready-to-Ship (RTS) and Ready-to-Order (RTO), so either way you're always ready to go. Recognized and respected for their quality, performance, and style which is always on trend, our Interpon RTS range is the stand-out performer on a global stage, and the first choice for some of the world's top manufacturers and industrial trend setters. Our RTO range is similarly impressive - for those projects where you already know the color you need - and ready to produce as soon as we receive your order.

Our unique finishes, fine textures and special effects are specially developed for industrial applications of any size, big or small, indoors and out. They're designed for those whose products not only set their own standards of excellence, but also strive for a kinder environment in which to live.

Leading benefits

We have a comprehensive portfolio of colors, textures and finishes that match the latest trends to satisfy your customers, and keep you one step ahead of your competitors:

Product choice

Customers can choose from a range of proven powder coatings including our Interpon 600 TGIC polyester portfolio that delivers excellent light and weather resistance and our Interpon 700 Epoxy-Polyester for interior applications where quality and performance are essential.

Minimum order quantity (MOQ)

All of our RTS powder coatings are available from stock, with a low minimum order quantity to ensure maximum efficiency and minimum waste. Our MOQ for RTO products is larger at 200kg.

Fast delivery

Our RTS range of powder coatings are easy to order and can be quickly despatched to ensure you can quickly respond to your customers' most urgent requests and reduce the risk of line downtime. RTO products do not require a color matching process and as such can be ready in three to four weeks.
