Quality up to scratch

Your imagination starts with our finish

AkzoNobel

Interpon D X-Pro

Proven protection against scratches and blemishes

Designed with job coaters and fabricators in mind, the Interpon D X-Pro is the latest generation coating system offering a market leading scratch resistant solution, that never compromises on style, color or finish. The Interpon D X-Pro is available from our RTS collection in the standard durable D1036 range and in the superdurable D2525 range.

From factory floor to final delivery on site, the powder coating helps protect products in transit or that are regularly moved and stacked, preventing damage and minimizing repairs.

Crucially the Interpon D X-Pro also ensures the surfaces of window frames, doors and similar architectural products are guarded against the wear and tear of everyday life with the ultimate protection from scratches and blemishes, whilst ensuring their colors, and your reputation, do not fade.

Leading benefits

Improved scratch resistance and gloss retention

Verified by the Martindale test, a global standard in scratch resistance (according to CEN-TS 16611) X-Pro is formulated to deliver excellent gloss retention to keep your assets looking better for longer.

Wide variety

The range offers more than 150 beautiful satin and matt finishes in standard or superdurable quality, to ensure your assets stand out from the crowd. Available from our RTS collection in the standard durable D1036 range and in the superdurable D2525 range.

Sustainable option

Choosing an interpon powder coating means that unlike other coatings it's free from Volatile Organic Compounds (VOCs) and you can use any overspray, meaning it's kinder to the environment.

Transparency and reliability

Creating futures that last

You can rely on us. Our Interpon D X-Pro range delivers on its promised durability levels in terms of color retention and film integrity.

Offering up to 15 years global warranty on the coating performance for the D1036 X-Pro range and up to 25 years global warranty for the Interpon D2525 X-Pro range, when applied by an Interpon D Approved Applicator

- Qualicoat Class 1 and Class 2
- GSB Standard and Master
- AAMA2603 and AAMA2604
- BS EN 12206

Building a sustainable future

The Interpon D X-Pro range is a family of products that is not just helping us to imagine the future; it is also protecting it. Backed by an Environmental Product Declaration (EPD), the raw materials, manufacture and transportation associated with creating Interpon D have been assessed by an independent third-party for transparent sustainability credentials.

AkzoNobel

Since 1792, we've been supplying the innovative paints and coatings that help to color people's lives and protect what matters most. Our world class portfolio of brands – including International, Sikkens and Interpon – is trusted by customers around the globe. We're active in more than 150 countries and use our expertise to sustain and enhance everyday life. Because we believe every surface is an opportunity. It's what you'd expect from a pioneering and long-established paints company that's dedicated to providing sustainable solutions and preserving the best of what we have today – while creating an even better tomorrow. Let's paint the future together.
