## Interpon 600 The exterior solution

You want your products to look great, but you also need them to perform. Interpon offers just that, with unparalleled protection, features and quality. It's what makes Interpon a global leader in powder coatings.

Interpon 600 is a range of polyester TGIC powder coatings designed for exterior exposure with good weather resistance from just one application. The coatings sustain a longer lifespan and are available in a wide range of colors and finishes which allow your product to shine. The Interpon 600 offers not only beautiful aesthetics but also a performance to match. It is ideally suited to a broad range of exterior applications including outdoor furniture, playground equipment, signs, fencing, vending machines and general metal finishing. Can also be used for indoor application if required.

### Leading benefits

#### Flexibility throughout

The Interpon 600 range provides total flexibility to satisfy every need. It includes a range of finishes including smooth, fine and coarse textures to suit any application, as well as gloss levels from deep matt to high gloss. And with color and shades including metallics that meet the appropriate standards such as RAL, Pantone and NCS. Interpon 600 can deliver the quality, consistency and assurance your project demands.

#### Simple solutions

Powder coatings need to be applied hassle free and quickly. The Interpon 600 helps you do just that. No matter how challenging the shape, the range is easy to apply to metal and other conductive surfaces. And you can use up to 100% of the powder product compared to liquid paint. The Interpon 600 series offers excellent edge coverage and forms a tough, thick film, to provide the best protection in challenging environments.

#### Peak performance

We know how valuable relationships are to your business; you want to do the best for your customers. That's where we come in. Our powder coatings address a range of different issues, from anti-microbial to moisture resistant qualities, as well as high reflectivity properties. Whatever the brief, the Interpon 600 can meet any challenge at any scale.

Interpon Series	Series description
Interpon 600	Exterior durable Polyester TGIC
Interpon 600 AC	Exterior durable Polyester TGIC with Advanced Cavity (improved penetration characteristics)
Interpon 600 AF	Exterior durable Polyester TGIC with Advanced Fluidity (improved application characteristics)
Interpon 600 AM	Exterior durable Polyester TGIC with Anti-Microbial properties
Interpon 600 MR	Exterior durable Polyester TGIC with Moisture Resistance pigments
Interpon 600 Reflex	Exterior durable Polyester TGIC with high reflectivity properties
Interpon 600 Low-E	Exterior durable Polyester TGIC with Low Energy curing

## Technical specification

Our system has outstanding mechanical properties. Our TGIC polyester creates excellent color retention on surfaces exposed to continuous heat, and can be used for electrostatic spraying, for interior or exterior use. Our powder coating has good resistance to most dilute solutions of acids, alkalis and oils, as well as excellent resistance to overbake.

### Typical performance characteristics

	Norm / Test method	Result
<b>Impact</b>	ASTM D2794	≥ 40/40
<b>Flexibility</b>	ASTM D522	1/8"
<b>Hardness</b>	ASTM D3363	≥ H
<b>Salt Spray</b>	ASTM B117	< 1/16" creep, no blisters, 500 hrs
<b>Humidity</b>	ASTM D2247	No change at 1000 hours
<b>Adhesion</b>	ASTM D3359	5B
<b>Florida exposure</b>	No chalking and slight gloss loss after 12 months	

The results shown are based on mechanical and chemical tests on steel substrate which have been carried out under laboratory conditions and are given for guidance only. Actual product performance will depend upon the circumstances under which the product is used.

### Approvals

#### Details

**UL** Interpon 600 is UL1332 "Coating, Organic, for Steel Enclosure-use Electrical Equipment – Component" recognized to UL Designation U1578-1 for several surfaces and pre-treatment methods. Check all details with your Interpon sales representative.

## AkzoNobel

We've been pioneering a world of possibilities to bring surfaces to life for well over 200 years. As experts in making coatings, there's a good chance you're only ever a few meters away from one of our products. Our world class portfolio of brands – including Dulux, International, Sikkens and Interpon – is trusted by customers around the globe. We're active in more than 150 countries and have set our sights on becoming the global industry leader. It's what you'd expect from the most sustainable paints company, which has been inventing the future for more than two centuries.
