## Resist Scratches with New Interpon D X-Pro

Now there is a solution for minimizing scratches during handling, transportation, and assembly of coated pieces.

**Interpon**<sup>®</sup>  
POWDER COATINGS

# New **Interpon D X-Pro** brings better service life to objects and optimizes their aesthetic appearance.

The scratch resistant properties of new **Interpon D X-Pro** protects profiles during transportation ensuring a superior finish and, thanks to its toughness compared to standard coatings, your assets retain their great looks for many years to come.

New X-Pro technology allows you to reduce reject rates in production and minimize touch-up requirements on site. It is based on highly reliable Interpon D technology, but with improved scratch resistance, particularly effective on dark colors with a satin or matt finish.

## Key Features of **Interpon D X-Pro**

- Available in standard (Interpon D1036) and superdurable (Interpon D2525) polyester
- Wide selection of popular dark colors, in satin and matt
- Improved gloss retention and scratch resistance verified by Martindale test equipment according to CEN-TS 16611 2016\*
- Up to 25 years project guarantee for Approved Applicators\*\*
- Up to 5 years Florida test (AAMA 2604)
- Maintenance friendly

## Proven Performance

Interpon D powder coatings meet the demanding weathering requirements of leading industry specifications;

- Qualicoat Class 1 and Class 2
- GSB Standard and Master
- AAMA 2603 and 2604
- BS EN 12206

**Give your assets Extra Protection, with new Interpon D X-Pro.**
